## TECHNICAL SKILLS

---

**Programming Language:** JavaScript, Typescript, Java, Python

**Web Development Frameworks:** React.js, Next.js, Express.js, Node.js.

**Developer Tools:** Docker, GitHub, AWS S3, EC2, Git, Postman, VS Code.

**Design and UI Tools:** Figma, Wix, Shadcn UI, Tailwind CSS, Aceternity UI.

**ORM and Database:** Mongoose, MongoDB, PostgreSQL, Prisma, Drizzle.

## EXPERIENCE

---

**SoftTech Bengaluru – Web gird** | [Live Link](#)

- **Tech Stack:** Next.js, Turborepo, Tailwind CSS, React, Responsive Design, Docker, Shadcn UI
- Created a Home Page for the website and added animations and enhanced UI.
- Collaborated and worked with experienced Developers.
- I have learned how to create pull requests, review and merge code from other contributors, and effectively manage conflicts. Additionally, I have deepened my understanding of Git by working with different branches, which has significantly enhanced my knowledge of version control and collaborative workflows.

**Coffee-Web-Saas** | *Freelance Project*

- **Tech Stack** - React, MERN Stack, Stripe, Shadcn UI, Subscription Model.
- Created a stripe payment model with database NoSQL database, worked with webhooks.

**Hacktoberfest 2024** | [Open Source](#)

- Contributed to 5 repositories, enhancing features and fixing bugs.
- Strengthened skills in Git, GitHub, and collaboration.

## PROJECTS

---

**Quick Post** | [Live Link](#) | [GitHub Code](#)

- **Tech Stack** - Next.js 15, Typescript, Tailwind CSS, Shadcn UI, PostgreSQL, Docker, NextAuth.js, Prisma, WebSocket (ws), AWS S3 Bucket, Date-fns, Node mailer.
- **Quick Post** is a social media application that offers an engaging and interactive experience. Users can create profiles, share multimedia posts, connect with others, and explore dynamic content with real-time updates.

**Get Me A Beer** | [Live Link](#) | [GitHub Code](#)

- **Tech Stack** - Next.js, Prisma, Zod, Shadcn UI, Razorpay, Tailwind CSS, Next auth, and Docker.
- The project deepened my expertise in payment integration, authentication, and cookie management.

**Blog** | [Live Link](#) | [GitHub Code](#)

- The app is built using React and TypeScript on the frontend, with other supporting technologies like Tailwind CSS for styling.

**Portfolio** | [Live Link](#) | [GitHub Code](#)

- Built with **Next.js**, **TypeScript**, and **Tailwind CSS**, featuring smooth UI animations, a contact form with **Nodemailer**, and Dockerized deployment.

**Workout Tracker** | [Live Link](#) | [GitHub Code](#)

- Created a full-stack app with MERN, React, Tailwind, and MongoDB.
- Managed workout documents and implemented CRUD operations.

## EDUCATION

---

**Bachelor of Technology in Computer Science**

Uttarakhand Technical University

August 2023 - September 2027 (expected)

**High School and Senior Secondary School Education**

2021-2023 Doon Presidency School (ICSE)
